

The “CONVINCIBLE”

John Kelley

This wreck was noted on the DiveOz internet site by Trevor Jackson the skipper of MV Esperance Star in late August and brought to my attention by Deb (thanks). I have no information on her except that she is noted as a 40 foot steel motor launch. The name was pretty in three colours – yellow, red and blue. She’s not been sunk for long. It’s a good 30m dive.
